Business Intelligence Solutions for the HP NonStop Server

Designed to link all data real-time into business intelligence tools, without having to migrate or replicate the data. Built upon our patented Periscope technology, NTI is the only company in the world that can link your NonStop data real-time into Oracle and SQL. With Business Link, most of the available business intelligence tools can access and analyze your data without first having to move the data off of NonStop.

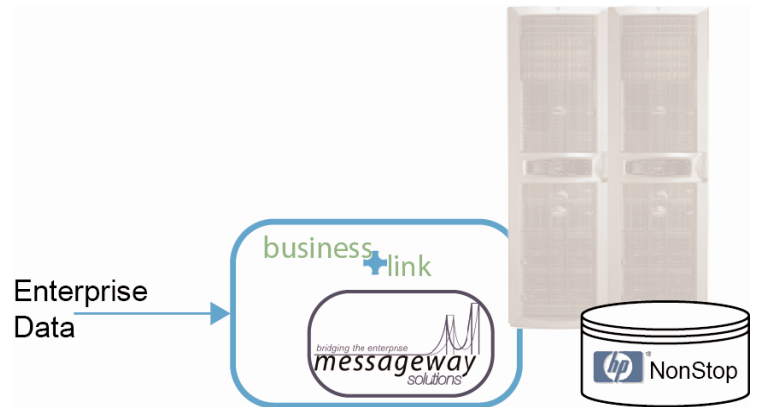

Product Features Include

- Link your HP NonStop data real-time into Business Intelligence tools
- Built upon our patented Periscope technology
- Supports over 50 databases and platforms
- Easily join your HP NonStop data with other enterprise data, without having to replicate off of your NonStop
- Installs easily, in just a few hours, without NonStop program modifications

warehouse + builder

Designed as a flexible Any-2-Any data movement engine, and positioned as the data loader for the new HP NonStop NEO platform. Warehouse Builder enables you to schedule the automatic sweep of data from across the enterprise into your Data Warehouse. Our award winning transformation engine enables you to select, validate, transform, and load your data on the fly. Our exclusive Business Link technology lets you select data from most of the platforms across the enterprise. Our real-time connection to HP NonStop lets you host your warehouse within the industry's highest performance and most reliable environment.

Product Features Include

- Allows you to use SQL/MX as the heart of your enterprise data warehouse
- Scheduled data loading
- Select data from over 50 databases and platforms
- Flexible data transformation
- Data Cleansing and Validation
- Data Auditing to support Compliance Requirements
- Data Encryption to support Compliance Requirements
- Extensive Notification lets you know when your data arrives, or signals potential problems
- Installs easily, in just a few hours, without NonStop program modifications

Commitment to Customer Support

As the premier provider of mission-critical disaster recovery solutions for HP NonStop, NTI maintains a 24-hour hotline to backup our worldwide customers. We have experienced product support staff in the US, Europe, Asia, and the Middle East.

At NTI, we Protect your Data from disasters, we Transform & Deliver your Data across your business, we give you Real-time access to your Data for real-time decisions, and we Enable your Business Intelligence needs.

Network Technologies Real-time Data, Real-time Solutions.

About Network Technologies International

With decades of HP NonStop experience, NTI pioneered data replication for HP NonStop platforms and is the industry's innovative leader in Disaster Avoidance Solutions. Beyond data replication, NTI leads the way in linking the HP NonStop real-time into your Business Intelligence environment.
